

RMMM – BRUFF RAIL THREADER

Description:

Normally used for re-railing. rail mounted operated machine for lifting and slewing two rails at a time into position on each sleeper. Staff follow behind to securely clip it up.

Fastline Fred's Tips:

- Never thread the rail until there are no staff in front of the rail to be threaded.
- Make sure all the locating pins are in place before using on the track.
- In case of breakdown call the Fastline Control Centre – 0845 450 2045
