

FASTCLIP HAND TOOLS

Description:

All types of Fastclip hand tools for rail clip inserting, removal and rail alignment. Suitable for use with all types of steel and concrete sleepers.

Key Specifications:

FASTCLIP INSTALLATION TOOL

Weight: 7.2 KG

Colour: Yellow/Green

This adjustable tool has two functions depending on the pivot pin position. The primary use being the installation of the Pandrol Fastclip Assembly in the "Switched On Position". This is shown in the above photograph. When the pivot pin is repositioned in the rear hole of the hook assembly the pandrol Fastclip will be installed in the "Switched Off Position".

FASTCLIP EXTRACTION TOOL

Weight: 7.1KG

Colour: Cream/Green

This tool is used when replacing **the clip/toe insulator and/or post insulator on existing Pandrol Fastclip Assemblies** and for general Pandrol Fastclip removal purposes. The tool incorporates a stop gauge to prevent over extraction of the Fastclip.

FASTCLIP SLEEPER LIFTER

Weight 6.6KG

Colour Blue

This tool is used during installation of the Fastclip Assembly. It aids the positioning of the sleeper in relationship to the rail and is usually used in conjunction with the Fastclip Installation Tool.

Safety Information:

Fastline Fred's Tips:

- Never use them if they are out of shape or damaged.
- Never carry the tool over your shoulder.
- Always adopt a comfortable stance when using a Fastclip tool.
- Visually inspect the tool before use and do not use if it is damaged.
- In case of breakdown call the Fastline Control Centre - 0845 450 2045.
